C A B I N E T .

The Cabinet of Minerals, Geological Specimens, Shells, and Plants, collected from different quarters of the globe, is extensive and well arranged for study. The advantages for instruction in Natural History, and in practical Chemistry, it is believed, are not excelled in this State. Experiments and illustrations, and a practical application of Chemistry to Agriculture, domestic economy and the arts, are made at each recitation.

L I B R A R Y .

A well selected and constantly increasing Library is connected with the U. B. Society, to which ladies have access free from expense, and gentlemen, by the payment of an annual fee.

A P P A R A T U S .

Appropriations will be made annually for the purchase of Apparatus. Surveying will be taught by field practice.

T E R M S .

The Academic year is divided into four terms of eleven weeks. Each term will commence on the first Tuesday in June, September, December and March respectively, followed by a vacation of two weeks.

A N N I V E R S A R Y .

An Oration will be delivered before the U. B. Society, on Wednesday evening, May 9th.

Exhibition, on Thursday evening, May 10th.

Public Examination of the Classical Department, Friday forenoon, May 11th.

Public Examination of the English Department, in the afternoon of the same day.

There will be a social gathering of the school on the evening of the same day.

Bethel Academy.

GENERAL INFORMATION.

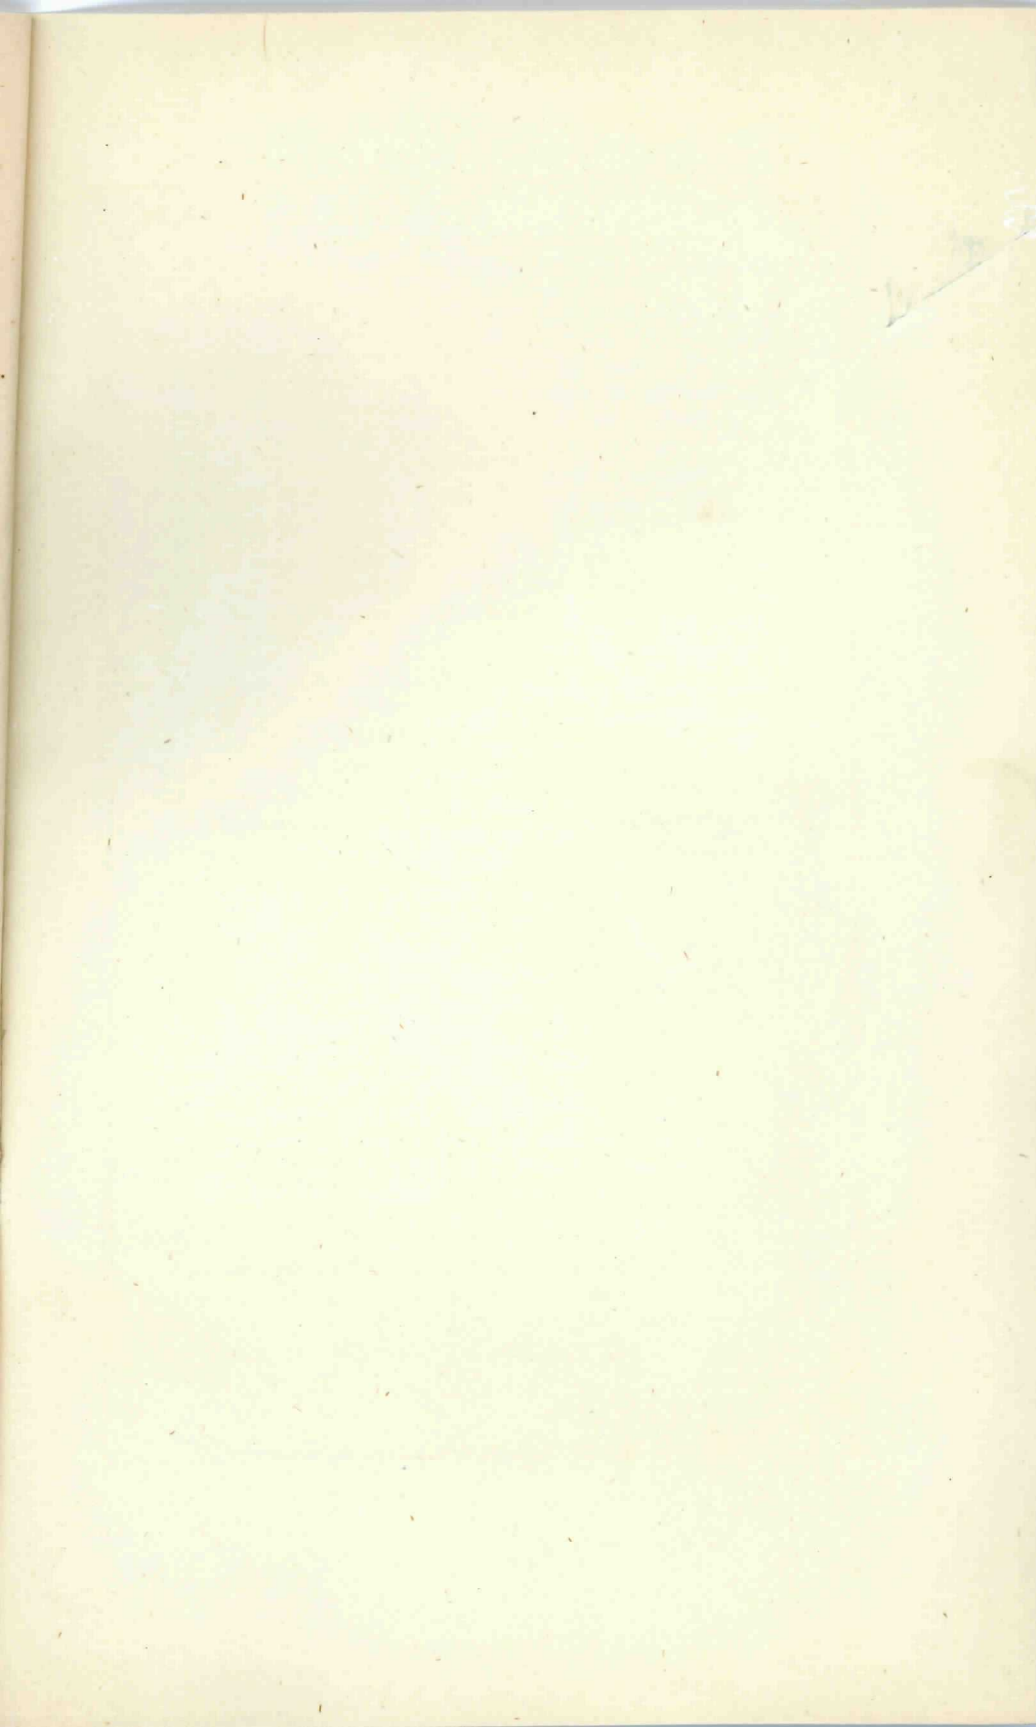

THIS INSTITUTION was founded in the year 1836, by the liberality of the inhabitants of Bethel, and has been in successful operation since that time. A valuable donation was subsequently bequeathed to the Institution by the Rev. DANIEL GOULD, from whom it received its name. In 1852 a half township of land was granted by the State, which has been carefully and successfully managed for the interests of the Institution. The income is such as to furnish an annual appropriation for apparatus, and improvements on the building. The building has recently been fitted up in a tasteful and commodious manner, and is capable of seating one hundred and fifty students. It is situated in the village at Bethel Hill, one hundred rods from the depot of the Grand Trunk Railway.

For beauty of location, romantic scenery, purity of air and water, its entire exemption from the damp easterly winds of the sea coast, and for the moral and intelligent character of its population, it will compare favorably with any other situation in New England. Special attention is given to those fitting for College, Teaching, or the Counting Room. Facilities are furnished to young ladies for acquiring a knowledge of the solid and ornamental branches. In the government and course of instruction, such methods will be employed as shall stimulate to exertion, expand and discipline the intellectual and moral powers.

We wish it, however, to be distinctly understood, that this school is not designed as a House of Reformation. The experience of many years has taught us, that, where children are unwilling to comply with parental authority at home, or have contracted idle and dissolute habits, it is useless to send them here with the expectation of their making any improvement. For such we have no accommodations; while for those who have no other object in view than hard study, and an earnest desire for improvement, everything possible will be done to render their situation pleasant and profitable.

A daily register is kept of all marked delinquencies, and forwarded to parents and guardians at the middle and close of each term, and no student will be retained who persists in a violation of the regulations of the school.

It will be the constant aim of the Principal to secure a systematic and thorough course of instruction in every department of the school. It is, therefore, of vital importance to the interests of the student, that he be present at the opening of the term, when the regular classes are formed. No student can make up the deficiencies of his class, and do it well, by being absent for a single day at that time.
